

# Strategic Plan 2023-2028

In order to build a more cohesive research program, the University has chosen 5 areas of strategic focus. Each area and its metrics are defined below.

## **1 Innovation in Medical Education**

a. To Achieve New Heights in Healthcare Education and fulfill our institutional mission, we will focus on promoting research and scholarship in medical education.

## **2 Promote Population Health and Patient Care**

a. Based on the Rocky Vista Mission to provide compassionate service as well as our leadership as a Healthcare University.

## **3 Basic and Translational Work**

a. To continue our pattern of excellence, we will maintain a focus on basic and translational research.

## **4 Applied & Basic Research into Basic Tenets and Advanced Practices of the Programs Offered**

a. As a healthcare university, we aim to be leaders in applying and researching advanced practices, focusing on differences in treatment response among UR and HD populations, as appropriate.

## **5 Wellness and Precision Medicine**

a. To promote the acceptance of diversity and healthcare practice-specific tenets, we will focus research and scholarship that integrates whole-body wellness and treating the individual.
